- **Frontend** : HTML, CSS, Tailwind CSS, Bootstrap
 - **Languages** : JavaScript, TypeScript
 - **Frameworks/Libraries** : React.js, Next.js
 - **State Management** : Redux, Redux Toolkit, Redux Saga, TanStack Query
 - **Backend** : Node.js, NestJS, MongoDB, PostgreSQL
 - **Tools** : Git, Axios, SEO, AWS
-

EDUCATION

Master of Computer Applications (MCA) JAIN (Deemed-to-be University)	2023 – 2025
--	--------------------

Bachelor of Computer Applications (BCA) Sutex Bank College of Computer Applications & Science	2020– 2023
---	-------------------

WORK EXPERIENCE

Codisco Tech - Sr. Fullstack Developer	Dec 2025 – Present
---	---------------------------

- Built responsive and high-performance full stack applications using React.js, Next.js, Node.js, and NestJS
- Developed and managed backend APIs and services with a focus on scalability and clean architecture
- Worked closely with clients to understand requirements and deliver complete end-to-end solutions
- Focused on creating clean UI, optimizing performance, and improving overall user experience

TametaTech (Micrasol LLP) - Frontend Developer / Team Lead	Nov 2022 – Nov 2025
---	----------------------------

- Lead frontend development for multiple projects across different domains
- Built scalable applications using Next.js, React, and Tailwind CSS
- Managed state using Redux Toolkit and handled API integration with Axios
- Mentored team members and ensured timely project delivery
- Worked on real-world systems including pet services, marketplaces, and management systems

PROJECTS

Happy Pet

- Built a pet discovery platform for breeders and users, supporting multiple pet categories. Enabled breeder profiles, puppy listings, and advanced search for breed-specific information.
- **Tech:** Next.js, Tailwind CSS, Redux Toolkit, Axios

GLA (Diamond Trading System)

- Built a diamond trading system for vendors and customers with strict inventory control. Ensured each diamond is purchased only once and cannot be resold after sale, while managing multiple vendors and transactions
- **Tech:** Next.js, TanStack Query, Axios, MUI, Tailwind CSS

Writeseen

- Designed a book publishing platform where authors can publish books and users can explore, purchase, and chat with authors. Focused on responsive UI and user-friendly experience
- **Tech:** React.js, Redux, Redux Saga, Tailwind CSS

GMS (Groomer Management System)

- Developed a management system for pet grooming businesses to handle staff, customers, appointments, and services. Implemented role-based access and an analytics dashboard for efficient store operations.
- **Tech:** Next.js, Tailwind CSS, Redux Toolkit, Axios

Designer Marketplace

- Created a learning and template marketplace allowing users to browse, filter, like, bookmark, and purchase design assets. Integrated external APIs and managed complex state using Redux and Redux Saga
- **Tech:** React.js, Next.js, Redux, Redux Saga
